

## **TODAY WE APPLIED YOUR PERIMETER PEST CONTROL**

Today, I made a perimeter pest control application. Perimeter pest control is a series of 3 applications. We applied a 10' band around your house to help reduce spiders, ants, earwigs and many others, before they have a chance to enter your home.

This will establish an insect shield around your home and protect it against pest invasion.

We want you to enjoy the comforts of home without having to deal with uninvited guests!

**Call now to be scheduled!!**
